

TelecomOptions

CLEARLY YOUR BEST CHOICE

OUR STORY

Telecom Options has been serving Manitoba since 1997. We are proud to provide quality phone and Internet services.

We have more than 20 years of experience in helping business clients like you.

We strive to be your one-stop shop for all your communications needs. At Telecom Options we provide a wide-range of services to meet your business needs. When you work with us you get the benefit of free consulting and reviews of your current communications costs to find a cost-effective communications solution that works for you.

WHY TELECOM OPTIONS?

We'll explain our prices and terms clearly and deliver the products you need at a fair price. We'll provide you with choices that may reduce or eliminate your current telecommunications bills.

We provide free technical support to assist with any line issue you may encounter. We will communicate with the local carrier on your behalf to resolve any issues.

We provide three months of free programming with any new telecommunication system. We have a long-term focus on your goals and we are committed to helping you succeed.

HOW DO I GET A QUOTE?

Before we can provide you with a quote, we require an equipment record so that we can review your current costs for free and show you how we can improve your current services, products and costs with exact numbers. The equipment record also gives you an opportunity to see exactly what you're paying for.

If you're interested in working with Telecom Options, we are happy to set up a meeting and explain our services and have a walk-through so we can assess your cabling needs.

HOW DO I SET UP A MEETING?

Please call us or send us an email if you would like to go over options specific to your needs.

WHAT IF I'M ON A CONTRACT?

We are happy to help you achieve your goals. If you're unhappy with your current service, we can make arrangements to contact you when your contract is ending and we will make an appointment a few months before your contract ends.

WHAT OUR CLIENTS SAY...

"We recently restructured our entire phone system as well as our Internet services. The entire team at Telecom Options answered all our questions and concerns immediately. They know how important communication systems are within a business and assisted us through some complex reorganization. Marielle also reduced our monthly costs by 50%! We highly recommend Marielle and her team at Telecom Options!"
